- Inbuilt temperature and humidity sensor
- Can be set to control air, floor or air and floor
- Comes complete with floor probe (only available on e version)
- Channel 1: programmable time and temperature, Channel 2: Programmable time

## 2 Channel Duo Thermostat

### SPECIFICATIONS

Supply	3500w / 230V
Temperature Range	5° to 35°C
Unit Size	85mm x 95mm
Wall Incision Depth	35mm
Warranty	2 year manufacturer's warranty
IP Protection	IP20
Probe	10K NTC

### FEATURES TABLE

Temperature Range	5 - 45°C
Full Colour Touch Screen Display	Y
Non-Programable Mode	Y
5/2 Day Programming Mode	Y
7 Day Programming Mode	Y
24 Hour Mode	Y
Number of Heating Levels	4
Number of Switching Times (Timer Mode)	4
Full Calendar Holiday Mode	Y
Passcode Lock	Y
Temperature Hold Function	Y
Temperature Override	Y
Temperature Limit	Y
Output Delay	Y
Frost Protection Mode (5 - 17°C)	Y
°C / °F Option	Y
Built-In Air Sensor	Y
Remote Air Sensing Mode	Y
Remote Floor Sensing Mode	Y
Max Switching Differential	16A
Accuracy +/-	1°C
Supply	230V AC
Installed Dimensions (mm)	95x85x13.5
Weight	159g

### DIMENSIONS & WIRING SPECIFICATION

All dimensions in mm unless otherwise stated.
