

Choice PR1n 1 Channel Programmer

Benefits

The Choice PR1 is a single channel programmer, designed primarily for timed control of your heating and hot water. Ideal for use with a combination (combi) boiler.

The programmer can be configured for 24 hour, 5/2 day or 7 day operation with the flexibility of up to three on/off timings per day.

- Pre-programmed but can easily be changed to suit your particular lifestyle
- Large and clear to read illuminated display
- Attractive modern design that will suit all contemporary homes
- Ideal for use with “Combination” Boilers with only one heating zone
- Can also be used in conjunction with an existing programmer to control additional heating zones or for when additional hot water cylinder control is required

Features

- 24 hour, 5/2 day and 7 day selectable
- 2 or 3 ON/OFF periods selectable
- 1,2 or 3 hour boost
- Advance to next programmed event
- Automatic Summer/Winter time change
- Holiday feature
- Program options - ON, OFF, All day or Auto
- Mains powered with battery backup
- Standard wall plate - simple plug in and replace

Applications

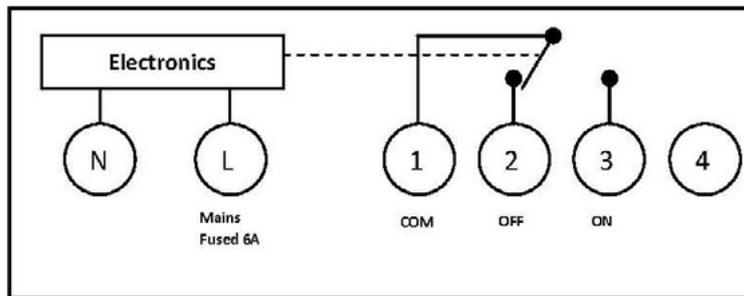

- Any simple time switch application up to the stated rating.
- Domestic heating systems where both heating and hot water services are required to switch ON/OFF at the same time.
- Controlling a “Combi” or “Combination Boiler”
